For Military, Law Enforcement, and Firefighters

As a nation we take for granted our soldiers, law enforcement, and firefighters until they are needed. These individuals, who give of themselves and risk their lives every day to protect us from harm, are often denigrated, until they are needed by the very same people who disenfranchised and attacked them.

At Mountain Woodworker we honor these men and women who go into harm's way to protect us while we either run away or cower in fear. To this end we offer our sincere thanks and show our appreciation to these brave individuals through the following discounts.
